F. Special art education	Teach special art using practical skills, such as drawing, making, and folding
G. Special physical education	Conduct special physical education for basic skills, such as stretches, ball games, and expressive plays
H. Computer literacy	Conduct training on computer literacy (i.e., Word, Excel, PowerPoint, etc.)  Conduct training on searching for information using the internet
I. Special experience-based education	Conduct education on talent development for children with special needs, and various creative experience-based activities  Introduce various foreign cultures and initiate education to cultivate global citizenship  Conduct career exploration coaching and education on career-related experiences
J. Education for parents	

24. Korean Language Education (general)

Category	Description of activities
Educational goal: teaching be eneral knowledge or hobbies	pasic Korean language to the general public who is learning for
	Determine grades and assign classes to students
	2) Design curriculum for a semester
A. Curriculum and syllabus	Develop evaluation sheets and conduct evaluation
design	4) Improve and develop Korean textbooks and other teaching materials
	(Korean textbooks developed based on local language, dictionaries,
	audio materials, etc.)
	1) Teach Korean speaking
	2) Teach Korean writing
B. Teaching Korean	3) Teach Korean listening
language by the medium of	4) Teach Korea reading
communication	5) Conduct evaluation by the medium of communication (including
	performance evaluation)
	1) Teach Korean grammar
C. Teaching Korean	2) Teach Korean alphabet
language, other than by the	Teach teaching method for pronunciation
medium of communication	4) Teach Chinese characters
	5) Teach Korean language to local Korean teachers
	1) Operate classes based on a combination of language and culture
	2) Operate classes based on the Korean Wave (Hallyu) content
	(soap opera, K-pop, etc.)
D. Korean culture classes	Design classes using newspapers and books
	4) Provide learning and experiences with food, traditional games, and
	traditional clothing
	5) Operate literature classes (poetry, novel, etc.)
E. Planning and operating	1) Host Korean speech contest
events for Korean language	2) Host Korean writing contest
performance and culture	Host Korean culture festival/K-POP singing contest

25. Korean Language Education (EPS-TOPIK)

Category	Description of activities
Educational goal: preparin	g for EPS-TOPIK
	1) Design curriculum and syllabus
	2) Teach Korean language by the medium of communication
A. Korean language	3) Teach Korean language, other than by the medium of communication
education (general) duties	4) Operate Korean culture classes
	5) Plan and operate events for Korean language performance and culture
B. EPS-TOPIK education	Analyze types of past vocabulary and diction test questions, and teach core theories
	Analyze types of past reading comprehension test questions and teach core theories
	3) Teach sound notation
	4) Hold mock exams

26. Korean language education (intensive)

Category	Description of activities
※ Educational goal: cultivating courses)	Korean language skills for academic study (college majors/elective
	1) Design curriculum and syllabus
	2) Teach Korean language by the medium of communication
A. Korean language	3) Teach Korean language, other than by medium of communication
education (general) duties	4) Operate Korean culture classes
	5) Plan and operate events for Korean language performance and culture
	1) Conduct specialized education on the Korean language as a foreign
B. Intensive Korean language	language and dissertation guidance
education	Conduct professional education on teaching methods
	1) Analyze types of past writing (=composition), reading, and listening
	test questions and tech core theories
C, TOPIK education	2) Solve and interpret past test questions
-,,	3) Operate classes to prepare for TOPIK (levels 1,2) and TOPIK (levels
	3-6)

Technology, Environment and Energy

Category	Job title	Ш
	27. Technology, Environment and Energy - General	
	28. Architecture	
Technology, Environment and Energy	29. Machine	
	30. Climate/Environment	
	31. Textile / Clothing	
	32. Welding	

### 27. Technology, Environment, and Energy -General

27. lec	chhology, Environment, and Energy -General
	Category
፠ For	those other than existing jobs for technology, environment, and energy
Α.	Conduct practical and theoretical education on technology, environment, and energy, and transfer of skills
100000	Cultivate talents in the field, conduct research and development, and plan and perform practical work
C.	Transfer of technologies in fields such as water, energy, transportation, city, and science and technology innovation

#### 28. Architecture

category	Description of activities
A. Architectural design	Principle of architectural design and methodology of architectural plan
	Making of a blueprint by using CAD/ SketchUp program
B. Building structure	Basic principle and understanding of building structure
D. Dunanig an array	Type and characteristic of building structural system
C. Building construction	Method and characteristic of building construction
	Understanding of construction process management
D. Architectural carpentry	Theory of carpentry and making of a furniture blueprint
	Making furniture by using environment-friendly lumber
E. Architectural equipment	Concept and theory of environment-friendly architectural system
	Understanding and practice of passive architectural equipment

#### 29. Machine

category	Description of activities
A. Mechanical design	Understanding of mechanical design
	2) Theory and practice of CAD
B. Mechanical tools	Cutting process training (rack)
	2) Cutting process training (milling)

C. Mechanical tools	Understanding and training of CNC mechanical tools
	2) Understanding and training of welding process
D. Mechanical drawing	Mechanical drawing, Auto CAD

### 30. Climate/Environment

Category	Description of activities
A. Foundational theories on	Teach mechanisms of purifying contaminated water and purification method
the environment	2) Teach basic knowledge of water quality testing
B. Knowledge of water	Teach basic knowledge of water quality testing
quality testing	2) Teach how to test water quality and how to use equipment
C. Environment cleaning	Teach mechanisms and methods of physical purification
methods	2) Teach mechanisms and methods of chemical purification
D. How to improve water supply facilities	Teach methods to purify water and environment, and methods to improve water supply facilities
	Teach how to design and apply physical and chemical purification facilities
E. Water quality hygiene	Teach water quality management and mechanisms of advanced water purification
management	2) Teach how to purify landfill and sewage facilities
F. Climate change	Conduct education on natural disaster prevention and disaster preparedness
	2) Conduct education on climate change for local residents and youth
	Initiate campaigns on climate and environment, and organize and operate clubs related to climate and environment

## 31. Textiles and clothing

category	Description of activities
	Weaving (preparation process, decomposition design)
A. Weaving	2) Knitting (stitch, Jaccard)
B. Dyeing	Dyeing (boiling off/bleaching, room temperature, high temperature, high pressure)
	2) Post-processing
C. Design	1) Fashion illustration
	2) Pattern design
D. Tailoring/sewing	1) Tailoring
	2) Fabric sewing (textile, knitting)
	3) Leather/industrial material sewing

## 32. Welding

category	Description of activities
A. Theory of welding,	Mechanical system, basic engineering, welding engineering, welding materials
practice with sheet metal, repair of welding machine	2) Practice with sheet metal
repair of welding indeniire	3) Basic repair of welding machine
B. Shielded metal arc weld (electric welding)	1) Fillet welding, butt welding
	2) Pipe cutting and welding
C. CO2 welding and spot welding	1) CO2 welding
	2) Spot Welding
	1) Gas welding
D. Gas welding and cutting	2) Cutting
E. TIG/MIG/MAG welding	1) TIG welding (Tungsten Inert Gas arc welding)
	2) MIG/MAG welding (Metal Inert Gas arc welding)

### 33. Automobile

category	Description of activities
A. Automotive engine	Engine maintenance (intake and exhaust, cooling, lubrication, fuel, ignition)
maintenance	Gasoline engine electronic control device and diesel engine electronic control device
B. Automotive sash	Brake Transmission and driveline, brake
maintenance	2) Suspension, Steering and Wheel & tire, Wheel Alignment
C. Automobile electric/electronic maintenance	Equipment for convenience, lighting system and charge, starting the engine, air conditioner
	Electric/electronic circuit analysis and trouble shooting, network communication device
D. Body repair and painting	Welding and cutting, panel change, body damage estimation and recovery
	2) Body painting (primer, putty, toning, masking)
E. Automotive design and performance test	System design (engine ancillaries system, sash, body and moving part, wiring design
	Performance test (power performance, brake performance, mileage and exhaust gas, vibration noise, thermal performance)

#### 34. Electric power

category	Description of activities
	Classification and distinction of electronic components
	Use of components
A. Electric/electronic basic	Analytical method of electric circuit
heories and practice	Calculation of resistance value for lighting LED lamp
	Making of DC power supply unit
	Measurement and test of DC power supply unit
	Formation of a system for pneumatic control
	Principle of pneumatic movement
B. Pneumatic(Hydraulic)	Type of circuit for pneumatic control
control theory	Time control by using electropneumatic timer
	Design and connection of electropneumatic control circuit
	Understanding of sequence components
	Formation of switchboard for family use
C. Interior control theory and	Principle and instructions of earth leakage circuit breaker
practice	Formation of circuit for making switchboard
	Connection for making switchboard
	Switchboard measurement and test
	Noncontact control
	Input/output allotment
D. Automatic control theory	Practice of PLC-based circuit
and practice	Practice of self-hold, interlock, scan processing circuit
	Understanding and practice of alternate circuit
	Understanding of PLC-based electropneumatic sequence control
E. PLC-based electric	Application of PLC-based sequence control
sequence	Practice of PLC-based sequence control

#### 35. Electronics

Description of activities
Voltage wave rectifier circuit
Zener diode constant voltage circuit
1) Common-emitter type circuit
1) Transistor circuit bias design
2) Theory and practice of unstable multivibrator

D. Digital signal processing and MATLAB programming	MATLAB program theory and practice (Type and characteristics of signal)
E. Microprocessor	1) C Language, Microprocessor
	2) LED-use output
	3) Switch-use input
	4) External interrupt function, timer/counter, etc.
	1) PLC use
F. PLC	2) a, b, and, or
	3) Timer, sensor, interlock circuit, etc.

Agriculture, Forestry and Fisheries

Category	Job title
	36. Agriculture, Forestry and Fisheries - General
	37. Agriculture
	38. Fisheries
농림수산	39. Food processing
	40. Community development
	41. Stockbreeding

36. Agriculture, Forestry, and Fisheries - General

Category	Description of activities
※ For those other than existin	g jobs for agriculture, forestry, and fisheries
A. Practical and theoretical education on agriculture	
B. Practical and theoretical education on forestry	Conduct education on forest resource creation, forest management, and forest product management/processing
C. Practical and theoretical education on fisheries	
D. Education on other areas of agriculture, forestry, and fisheries	

### 37. Agriculture

category	Description of activities
	Types and characteristics of vegetables/management
A. Vegetable cultivation	2) Soil and plant nutrition, and insect pest control
B. Greenhouse horticulture	Types and characteristics of crop cultivation facilities
	2) Environmental technique of crop cultivation facilities
C. Crop genetic breeding	Reproduction method and heredity of crops
	2) Breeding method of crops
D. Processing of agricultural	Handling after harvesting agricultural products
products	Storage and processing of agricultural products

#### 38. Fisheries

category	Description of activities
	Materials and characteristics of fishing gear
A. Fishing gear and tools	2) Type and use of fishing tools
B. Fishery and fishing	1) Process of fishery

method	Classification and behavior of fishing gear and tools
C. Current status of	Current status of international fishery
international fishery	2) Processing and distribution of caught fish
	1) Summary of rearing
D. Rearing and managing fish	2) Rearing facility and breeding method / disease prevention and control
E. Maintenance of fishing	1) Fishing net
gear	2) Knotting method

# 39. Food processing

category	Description of activities
A. New product development by using local specialties	Development of agricultural food (jelly, dried fruit, juice, bakery, confectionery, fermented foods, etc.)
	Development of livestock products (cheese, yogurt, ham, egg processing, etc.)
B. Analysis of food ingredients	1) Analysis of regular ingredients
	2) Equipment analysis (HPLC, GC, spectrophotometry, etc.)
C. Food microorganism and sanitation management	Analytical method according to the types of microorganisms
	2) HACCP management
D. Food physiological phenomenon and storage method	Physiological phenomenon according to the types of foods
	Storage method (refrigerating, freezing, drying, sugar storage, CA storage)
E. Food packaging	Types and characteristics of packing materials
	2) Packing and designing

40. Community Development

Category	Description of activities
A. Rural area development	Conduct education on an understanding of the regional development theories and cultural and religious
practices	Participate in rural development suitable for each country's industrial level
B. Agricultural products	Transfer of basic breeding skills for crops (livestock) suitable for the climate (fruit trees, horticulture, flowers, water crops, tillage agriculture, fattened cattle, cattle, pig farming, poultry farming, etc.)
cultivating and livestock breeding skills	<ol> <li>Transfer of agriculture and livestock-related machinery and equipment handling skills (power device, irrigation facility, vinyl greenhouse facilities, etc.)</li> </ol>
C. Construction and building	1) Conduct education on a basic understanding of livestock industry

facilities	facilities and basics of environmental management
	<ol> <li>Transfer of basic skills required to install and maintain local industrial facilities (layout, electricity, plumbing, cement, painting, carpentry, etc.)</li> </ol>
1	Conduct education on an understanding of the urban development plans based on regional characteristics
D. City life and culture	Conduct education on an understanding of the urban regional economy, based on regional characteristics
E. Community decision-making	Conduct leadership coaching to preside over a meeting and decision- making process for the community

## 41. Stockbreeding

category	Description of activities
	Selection of pigs and crossbreeding practice
A. Breeding pig production	2) Artificial insemination of pigs (producing and injecting semen)
B. Pigs feeding and management	1) Pig breeding management
	2) Pig delivery management and pig growing-fattening management
C. Big domestic animals	Cow breeding management and cow growing-fattening management
feeding and management	Milking and milk management practice
D. Chicken feeding and	1) Management of laying hens
management	2) Management of broiler chickens
. Management of pen	Management of interior pen facility
environment	2) Excrement handling and recycling

Healthcare

Category	Job title	
	42. Healthcare - General	
Healthcare	43. Nutrition Management	

## 42. Health Care - General

Category ·	Description of activities
	Conduct education on various infectious diseases
A. Education on infectious diseases control	<ol> <li>Conduct education on personal hygiene and sanitation (hand washing, dental care, etc.)</li> </ol>
B. Planning and evaluating	1) Operate health education programs in schools - Family planning/sex education - Managing sexually transmitted diseases (syphilis, gonorrhea, AIDS, etc.) - First aid - Safety education
health education	<ol> <li>Operate health education programs for local residents (quitting smoking, tetanus, parasites, skin diseases, endemic diseases, rabies, malnutrition, etc.)</li> </ol>
	Operate employee training programs
	4) Perform health-related statistics works
	1) Perform safety management (facility management, maintenance, etc.)
C. Facility environment management	Perform pollution control (wastewater management, managing wastewater from restaurants, drinking fountains, sinks, toilets, etc.)

43. Nutrition management

Category	Description of activities			
A. Food analysis	Conduct analysis research on child nutritional status			
B. Clinical nutrition	Conduct research on food nutrition, meal plans tailored to students in school or patients in hospitals			
C. Basic nutrients	Conduct research to identify measures to reduce populations with malnourishment through plans to enhance and supplement nutrients  Conduct education for students and institutional personnel in the field of food and nutrition science			
D. Nutrition education				

### แนวทางความร่วมมืออาสาสมัครเกาหลี ประจำปี ๒๕๖๗

### วัตถุประสงศ์

เพื่อสนับสนุนให้อาสาสมัครที่มาปฏิบัติงานในหน่วยงานไทยต่าง ๆ ได้แลกเปลี่ยนเรียนรู้ประสบการณ์ ซึ่งกันและกัน อันเป็นการสร้างสัมพันธ์ในระดับประชาชน และแลกเปลี่ยนวัฒนธรรมระหว่างลองประเทศ เพื่อกระชับความสัมพันธ์ในระดับประเทศ คุณสมบดิของอาสาสมัศร

#### െ Junior

- มีอายุระหว่าง ๒๐ ๔๘ ปี
- จบการศึกษาระดับประกาศนียบัตร หรือปริญญาตรีสาขาที่เกี่ยวข้อง
- ประสบการณ์ทำงาน ๑ ปีขึ้นไป
- มีทัศนคติ ความกระตือรือรัน ความเชื่อมั่น และพร้อมที่จะเป็นอาสาสมัคร
- มีความรู้ภาษาอังกฤษระดับบ่านกลาง-สูง
- ได้รับการอบรมภาษาไทย ประมาณ ๕ สัปดาห์ก่อนปฏิบัติหน้าที่

#### ත. Senior

- มีอายุระหว่าง ๔๙ ๖๒ ปี
- จบการศึกษาระดับประกาศนียบัตร หรือปริญญาตรีสาขาที่เกี่ยวข้อง
- ประสบการณ์ทำงาน ๑๐ ปีขึ้นไป
- มีทัศนคติ ความกระตือรีอรัน ความเชื่อมั่น และพร้อมที่จะเป็นอาสาสมัคร
- มีความรู้ภาษาอังกฤษระดับปานกลาง-สูง
- ได้รับการอบรมภาษาไทย ประมาณ ๕ สัปดาห์ก่อนปฏิบัติหน้าที่

## ระยะเวลาการปฏิบัติงาน คราวละ ๑ - ๒ ปี

#### ความรับผิดชอบของหน่วยงาน

- Korea International Cooperation Agency (KOICA)
  - คำใช้จ่ายในการเดินทางระหว่างประเทศ
  - ค่ายังชีพในประเทศไทย
  - ค่าประกันชีวิตและสุขภาพ
  - ค่ารักษาพยาบาล
- ๒. กรมความร่วมมือระหว่างประเทศ (TICA)
  - ค่าเช่าบ้าน
  - ค่าใช้จ่ายในการเดินทางไปปฏิบัติงานภายในประเทศ

#### - อำนวยความสะดวก

- ขยายระยะเวลาพำนักชั่วคราวในประเทศไทย และ mutiple re-entry visa
- จัดทำบัตรประจำตัว (ID Card)

#### ๓. หน่วยงานผู้รับอาสาสมัคร

- จัดหาที่พักเหมาะสม เดินทาง และปลอดภัยให้แก่อาสาสมัคร
- หน่วยงานต้องมีแผนการปฏิบัติงานสำหรับอาสาสมัครและมอบหมายเจ้าหน้าที่ปฏิบัติงาน ร่วมกับอาสาสมัคร ทั้งนี้ เจ้าหน้าที่ฝ่ายไทยควรมีความรู้ภาษาอังกฤษดี
  - อาสาสมัครไม่ใช่ผู้ปฏิบัติงานแทนเจ้าหน้าที่ แต่เป็นผู้ปฏิบัติงานร่วมกับเจ้าหน้าที่
- อาสาสมัครไม่ใช่ผู้เชี่ยวชาญ มีความรู้ความสามารถระดับหนึ่ง จึงให้อาสาสมัครปฏิบัติงาน ตามศักยภาพ
  - ให้ความช่วยเหลือแก่อาสาสมัครตามความเหมาะสม

#### การขออาสาสมัครเกาหลื

การขออาสาสมัครเกาหลีจะต้องกำหนดจำนวนอาสาสมัคร ความรู้ ประสบการณ์ และคุณสมบัติของ อาสาสมัครที่ต้องการให้ชัดเจน เพื่อ KOICA สามารถคัดเลือกอาสาสมัครได้ตรงกับความต้องการของ หน่วยงาน

การขอขยายระยะเวลาปฏิบัติงานของอาสาสมัครเกาหลี

หน่วยงานไทยที่ประสงค์จะขอขยายระยะเวลาปฏบัติงานของอาสาสมัครเกาหลีจะต้องจัดทำหนังสือ ถึงกรมความร่วมมือระหว่างประเทศแจ้งขอขยายระยะเวลาปฏิบัติงานล่วงหน้าเป็นระยะเวลา ๒ เดือน ก่อนสิ้นสุดระยะเวลาปฏิบัติงานของอาสาสมัครเกาหลี พร้อมแนบรายงานผลการปฏิบัติงาน แผนการ ปฏิบัติงานในช่วงขยายระยะเวลาปฏิบัติงานภาษาไทย และภาษาอังกฤษ และรายละเอียดการขอขยาย ระยะเวลาปฏิบัติงาน

# Official Request for World Friends KOICA Volunteer
